

Metacognition

Grounded in high quality research, this training will extend teachers' knowledge and understanding of this exciting field of psychology. The training particularly focuses on how metacognition can be used to improve outcomes for disadvantaged pupils and be a key strategy for inclusion.

The EEF rates metacognition as the highest impact strategy for closing the attainment gap, reporting that pupils can make 7+ months of progress. Through bespoke consultancy for school leaders, staff training throughout the year and access to practical resources, your school can ensure that pupils capitalise on the benefits of metacognition.

Training covers a number of themes:

- Understanding the role metacognition plays in pupil progress and how pupils can become more effective and efficient learners;
- Increasing teacher understanding of how to develop metacognition in the classroom - a range of habits and approaches every teacher can employ;
- Using metacognition to enable pupils to become more independent;
- Choose from a range of modules to help teachers apply metacognition, e.g. Plan-Monitor-Check, Teacher think alouds, pupil think alouds, increasing pupils' ability to choose effective strategies, mechanisms for supporting thinking, metacognition applied to problem solving, mathematics, reading, test performance.

The training supports leaders and teachers to create learners who are: highly reflective and capable of taking charge of their own learning; engage in self-monitoring and self-correcting; and can articulate their learning.

The schools I have worked with have found the modular format builds team confidence and embeds new practices incrementally with amazing impact.

"I credit much of my academic success to developing metacognitive skills—but I gained them by chance, not design. I was lucky. Our pupils shouldn't have to rely on luck. It matters deeply to me that every learner is equipped with the metacognitive tools they need to succeed."

Vicky Crane
Consultant and Trainer

"Useful resources and excellent activities."

"Lovely atmosphere. Superb trainer. Great subject knowledge."

"Really enjoyed the training. Vicky is a generous and engaging course leader."

"Really practical resources. Lots of activities to take back for immediate and long-term action."

"The whole course was outstanding."

"Lots of ideas to develop metacognition across the school."
